

Experience@Singapore is an exclusive programme that includes visits to companies, economic agencies and key infrastructural projects. It provides students with insights to Singapore as an Engineering & Technology hub.

The **5-day programme** will focus on the following themes:

1. Discovering Singapore - An Introduction
2. Energy - Asia's Leading Energy Hub: Playing a critical role in meeting the world's energy demands
3. Electronics/Semiconductor - World Class Node for Electronics: Pushing the frontiers of electronics
4. Biomedical Science - Biopolis of Asia: Where talent fuels science and business
5. Environment & Water - Global Hydrohub: Creating solutions to address the world's environment & water challenges

Who can participate in Experience@Singapore?

The programme is open to all penultimate, final year undergraduate and Master's students based in universities in North America, United Kingdom and Australia.

Applicants should be keen to explore a career in Singapore, have or expect at least a second upper class honours (or equivalent) degree in Mechanical, Electrical, Process, Chemical, Biomedical Engineering, and a good track record of extracurricular activities.

How do you apply for Experience@Singapore: Engineering & Technology?

Log on to <http://www.contactsingapore.sg/experience@singapore> to submit your application. It should include, in one single PDF or MS Word document:

1. Your Curriculum Vitae (CV) including your institution name, course and year of study, CGPA, graduation & availability date, and other extra-curricular activities & awards.
2. An essay of about 500 words on why you want to participate in Experience@Singapore and how the programme can benefit you.

Applications must reach Contact Singapore by **21 April 2009**.

Successful candidates for the programme will be notified by **8 June 2009**.
